# Fueling the future with the power of innovation

KPMG Powered Enterprise enabled by Oracle for Oil and Gas

Oil and gas companies must invest in innovative technologies to remain competitive, enhance their operations, and drive growth. However, these investments must be made carefully, with consideration for existing operations, risk management, and integration with legacy systems.

## KPMG – Delivering meaningful transformations

At KPMG, we are dedicated to helping oil and gas clients of all sizes anticipate and manage the current environment while planning for future challenges.

Our team of industry professionals immerse themselves in your organization and enable you to drive rapid business and technology modernization to achieve better functional performance, support new ways of working, help ensure processes are future-ready, and better manage risks and regulations.

KPMG Powered Enterprise enabled by Oracle for Oil and Gas is specifically designed and tailored to meet the unique needs of the oil and gas industry, and comes preconfigured with industry-leading practices, processes, and market-leading Oracle Cloud technologies.

With KPMG Powered Enterprise for Oil and Gas, you get tailored, data-driven solutions for Finance, Human Resources (HR), Procurement, and Supply Chain that help you deliver value, drive innovation, and build stakeholder trust:

- Modernize and align Finance, HR, Procurement, and Supply Chain systems to future-state strategies and target operating models.
- Deploy innovative cloud-based automation and advanced technology solutions to help you deliver measurable business results.
- Leverage data and analytics to make strategic and operational decisions with the agility and flexibility needed to adapt to changing market conditions.
- Reduce risk, enhance insight, and drive efficiency.

## The positive impact of digital transformation

- 63%** increased their profitability or performance by using XaaS\*
- 72%** recorded improvements in employee productivity
- 71%** enhanced customer engagement

Source: [2023 KPMG Global Tech Report](#)

*\*XaaS stands for "Anything as a Service," and refers to delivering services and applications through a cloud-based model rather than through on-premises installations.*

## Why KPMG for Oil and Gas?

Our oil and gas team advises large and diverse companies around the world, including global corporations; independents; upstream, downstream, and midstream companies; refineries; and drilling. Proven established assets and accelerators include:

- **Target Operating Models** to accelerate transformation
- **Preconfigured business and technology accelerators for Oracle Cloud ERP, HCM, and SCM solutions**
- **Pre-built integrations to third-party applications and data conversion automations** to migrate master data from legacy software
- **KPMG Oracle SaaS Extension Frameworks** to rapidly address unique requirements and needs
- **Future of Finance and supply chain blueprints** to drive leading practices for development, implementation, and managed services
- **Oracle Accounting Hub Cloud business rules** to support the data transformation and preprocessing of transactional data and integration capabilities.

## Designed to help you succeed

KPMG Powered Enterprise for Oil and Gas offers prebuilt, next-generation solutions optimized for Oracle Cloud.

You get the comprehensive, thorough, high-speed value that comes from Oracle Cloud-enabled technology combined with the knowledge of KPMG energy industry professionals.

Ultimately, it makes your business more responsive, resilient, and competitive.

## KPMG Target Operating Model
